

Returning to OLR Our Social Story

To keep everyone safe, we have been staying at home.

**The doctors have told us it is safe for us to
start coming back to school.**

We have started coming back to school on different days.

Some days when I go to school, my teacher will be there. Some days, I might have a teacher from a different class.

Even if I don't have my normal teacher, that's okay. I know all the teachers at school care about me and can help me.

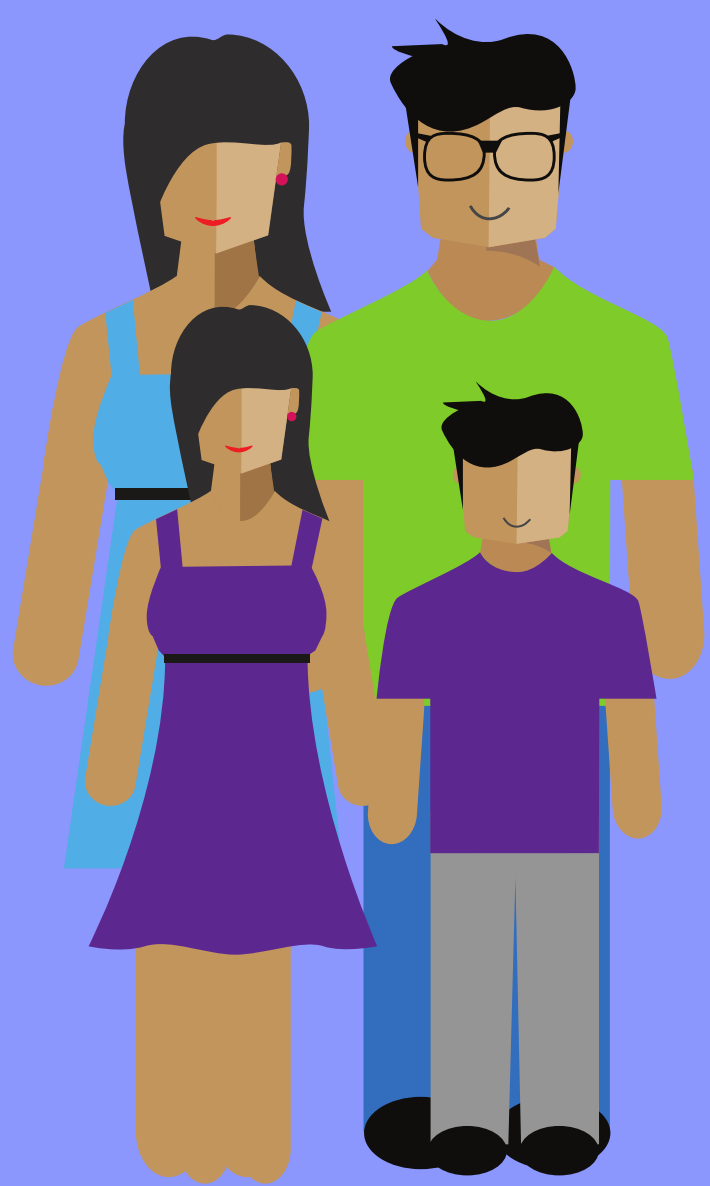

Some of my friends may be at school when I am at school.

Some of my friends will be at home when I am at school. That's okay, I will see them soon.

Teachers will help me find a friend at break times.

My family might choose to keep me learning at home
for a little longer.

My teacher will tell me about some different rules to be safe and healthy at school.

My class might be be smaller.

Sometimes these changes make me feel upset and worried.

It is okay to feel worried and upset.
My family and teachers can help me.

Soon we will be back at school everyday.

My teachers and friends will be so happy to see me.
