

## National Science Week 14th to 22nd August

The theme this year is **FOOD**, and celebrating and exploring the role of science in food production.

As we will be at home for Science Week, we invite all students to have some fun and make something around the topic of **JAM** and **BISCUITS**, record this and send it to school.

### Here are some tips!

- The clip should be the children making or eating biscuits with jam.
- If filming from an iPhone or iPad, turn your device to landscape (horizontal) to film.
- The clip should be no longer than 30 seconds.
- Don't be afraid to be creative - crumbs and mess are good!
- Don't worry about background noise (we will edit the sound out).

Once you've got your footage, please email to  
[botfield@dbb.catholic.edu.au](mailto:botfield@dbb.catholic.edu.au)

Please name it class/your full name. eg. 6G Mary Smith

Please contact Mr Botfield if you have any questions

**CLIPS ARE DUE BY FRIDAY 13TH AUGUST**
